All it takes is five easy steps:

1. Look at another Centre's online CSI to ensure it reflects your needs (see list below)
2. Check with your IT department or web hosting service to ensure that you can post Active Server Pages (ASP) making a connection to an Access database. We can help arrange web hosting, if needed.
3. Issue a purchase order for \$400—assuming that you do not want extensive modifications to the existing format.

4. Send the Microsoft Access database with your Community Services Inventory (CSI) to us.
5. You will receive the pages that can be posted on your website, customized with your information.

Online CSIs:

(in reverse chronological order)

Timmins-James Bay

www.timminschildfamily.org/inventory/intro.htm

Timiskaming-Cochrane

www.timiskamingchildcare.ca/Services/intro.htm

Nipissing

(with custom agency and program categories)

www.nbdacl.org/inventory/

Parry Sound-Muskoka

(with custom sub-regions and a speaker's bureau)
